LAND OF ORIGINS

# ETHIOPIA

## THE HIDDEN TREASURE

Ethiopia is the oldest independent country in Africa which boasts one of the oldest and most colorful histories of any African kingdom. Ethiopia is located in the Horn of Africa (Eastern Africa), with the Great Rift Valley at its centre with stunning scenery and one of the oldest sites of human existence in the world.

Ethiopia is '3 in One Destination', a country where you will get Historical, Cultural and Natural Attractions in one place including several events and colorful ceremonies. The north-west in addition also offers up the scenic Ethiopian Highlands and the Simien Mountains. The cultural south of the country is where one comes across many of the famous tribes of Ethiopia including the Mursi, Hamar, Tsemai, Ari, Karo, Dassenech people. Highlights in this region include the Omo Valley, Great Rift Valley and Lakes, Bale Mountains. Danakil Depression is one of lowest place in our planet and is home to Dallol Depression that holds the record for the highest average annual temperature ever recorded a whopping 34.6 degrees Celsius. They call it the "Land of Origins".

LAND OF ORIGINS

## HISTORICAL ATTRACTIONS

Ethiopia's rich historical heritage is unique in sub-Saharan Africa. The country looks back on a history of more than 3,000 years when the city of Axum became the center of an empire stretching from the Nile River across the red sea to the Yemen. Much of the fascination of Ethiopia lies in the myriad historical sites, the obelisks and stele of Axum, the churches and Orthodox monastery in the Tigray area. The ancient monastery's in Lake Tana, the remarkable rock hewn churches of Lalibela, the royal enclosure in Gondar, the wall of Harar, and so More...

## CULTURAL ATTRACTIONS

Ethiopia is a veritable mosaic of peoples. There are over 83 ethnic groups, each speaking it's own language, several of which have not yet been classified by linguists. Although the original physical differences between the major ethnic groups have been blurred by centuries, if not millennia, of intermarriage, there remain many who are distinct and unique. There are a bounty of fascinating costumes, colorful ceremonies and celebrations, arts, crafts, music and dance that distinguish Ethiopia to a diminutive Africa.'

## NATURAL ATTRACTIONS

The cornucopia of natural beauty that blesses Ethiopia offers an astonishing variety of landscapes: Afro-Alpine highlands soaring to around 4,300 meters, deserts sprinkled with salt flats and yellow Sulphur, lake lands with rare and beautiful birds, moors and mountains, the splendor of the Great Rift Valley, white-water rivers, savannah teeming with game, giant waterfalls, dense and lush jungle the list is endless. Ethiopia's many national parks enable the visitor to enjoy the country's scenery and its wildlife, conserved in natural habitats, and offer opportunities for travel adventure unparalleled in Africa.

## ETHIOPIAN FESTIVALS

Celebrations in Ethiopia are great and colorful events, mostly religious, and frequently take place over several days. Important Christian holidays include Meskel, Christmas, Timkat, Kiddus Yohannes and Easter. Timkat, which marks Christ's baptism, is the most colorful event of the year. In September, the two-day feast of Meskal marks the finding of the True Cross. Kiddus Yohannes, New Year's Day comes on September 11, which coincides with the end of the season of heavy rains and the beginning of spring.

## 📍 ETHIOPIA'S DANAKIL DEPRESSION

Dallol is a fire of craters in the salt plain northeast of the Erta Ale ranges in one of the lowest and hottest areas of the desolate Danakil depression and home to the Afar people. Colorful hot brine springs and fumarolic deposits are found in the Dallol area. This is special because it is one of the lowest points on earth not covered by water. There are hot yellow sulfur fields among the sparkling white salt beds.
